The Park theatre management, in order to keep up to their usual high standard service, installed in their theatre yesterday ten new 166-inch electric fans, placed at different angles in the house. These combined with the ice box beneath the floor which has a fan giving a draft over the ice causing a cool circulation throughout the entire hall, makes it a very desirable place to sit through these sweltering July days.

The music of the band helped a heart pestered crowd to forget its troubles in City park last evening, when the Christopher Columbus musicians under the direction of their leader, Peter Gropelli, gave the last of two concerts authorized by the city council last week. The junior band performed creditably last week and perhaps the good impression made on music lovers was responsible for the crowd that thronged the greensward and contiguous streets, although it is to be surmised that the oppressive heat drove many into the open. A varied program of popular airs, classical music and patriotic strains was given in the course of an hour in the band stand and the musicians were liberally applauded.

Come and examine all the new features. You incur no obligation. But you should come early so you can study the mall carefully. Our stock of Hoosier patterns is limited. You may be too late to get one at the present price and on the Hoosier Plan, if you delay. Come and SEE these remarkable NEW Hoosiers.

PRICES WILL ADVANCE When This Allotment is Gone

Before the coming prices take effect, you may choose between the new "Hoosier Wonder" pictured here or one of the other celebrated Hoosiers—"Hoosier Beauty," "Hoosier Special" or "Hoosier De Lux."

The terms of this Hoosier Plan in our store are these:

1. \$1 puts the cabinet you choose in your home.
2. \$1 weekly quickly pays for it.
3. The low Cash Price fixed by the factory prevails strictly.
4. No interest. No extra fees.
5. This sale is conducted under the direct supervision of the Hoosier Company.

Only by grasping this opportunity at once can you be sure of getting your cabinet on the Hoosier Plan—and at the present low prices.

You realize of course that these terms could not be offered except on a very limited number of cabinets.

Why Prices Must Be Increased

50,000 cabinets—the entire spring output of the Hoosier factory—were sold in six weeks after they announced their new models. In some cities women have been unable for several months to get this most popular style.

Now the factory has made up 20,000 more for July and August sales. The next lot, after these are gone, must be sold at higher prices. This is due to the increased cost of all raw materials entering into their manufacture.

Our Sale May Close Any Day

If all the women who need the Hoosier should come for it to-morrow, our full allotment of Hoosier Cabinets would be taken before night and the sale would close. This happened in some towns during a similar sale two years ago. Yet, if women delay, the sale may last a week or more. But which now is best for you—to take chances and miss this opportunity, or come to our store to-morrow so you can find out about this cabinet and decide before too late?

It need not take you ten minutes to decide, once for all, whether you intend to buy now, or later, after the prices go up. And you are deciding, remember, whether you will save many dollars and miles of unnecessary steps that you now take daily in a hot kitchen.

Every Woman Has a Right to a Hoosier

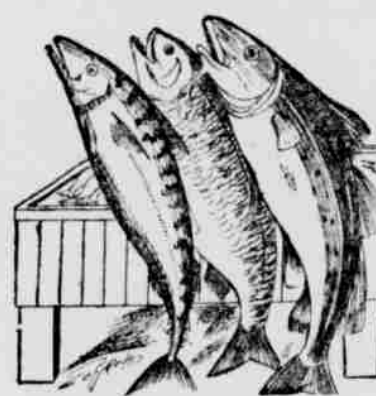

Sooner or later you will probably get a cabinet anyway. Then why waste money—why waste your energy, health and time by waiting till the prices go up? You should—without fail—seize this chance at once.
